

Another Option Available from

ROCKFORD

Rockford, best known for offering replacement u-joints for the staked-in Honda CRV is now going to offer brand new CRV complete assemblies!!!

Complete, balanced & ready to install

Protective installation shields are shipped between the center support and sealed cv joint... removed after installation

Manufactured with greasable universal joints to extend part life

If you've ever been frustrated trying to replace the staked-in u-joints on a CRV to find out that the OEM u-joint has been run too long and dug into the weld yoke or flange yoke, we have a solution for you! Rockford now has a new replacement driveshaft... at a fraction of the cost of an OEM replacement!
