

More New Products from

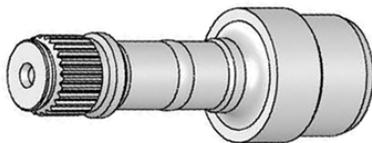

Build or Repair any front driveshaft for the 1999-2005 Jeep Grand Cherokee & Liberty!! We offer the parts you need.

Purchase a complete assembly built with 100% NEW components or build one yourself to use with 2" x .120 tube

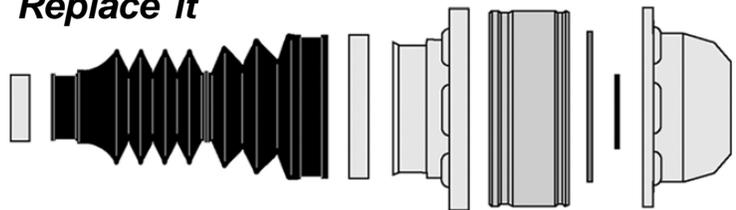

Has the Rear CV Joint Failed? Replace it with our 361-80 CV Joint Kit.

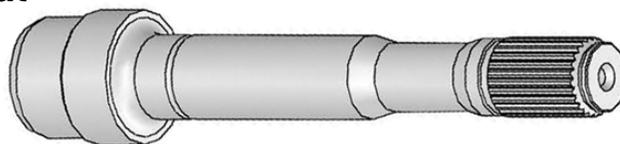

Has the splines on the OEM shaft been torn off or is the stub bent? Replace that with our 361-31 - it fits the OEM tubing and is 1/2" longer then the original to allow for cutting.

Has the Front CV Joint Failed? Replace it with our 361-80B CV Joint Kit.

Has the stub on the OEM shaft been destroyed? Replace that with our 361-31B - it fits the OEM tubing and is 1/2" longer then the original stub spline to allow for cutting.

Notes to think about:

- The Complete CV Joint Kits include the complete CV Joint, Boot, End Caps, Gaskets, Snap Rings, Grease & Clamps.*
- The 361-80 is an OEM replacement joint for 1999-2004 Jeep Grand Cherokee - (Rear Joint) & 2002-2005 Jeep Liberty - (Rear Joint).*
- The 361-80B is an OEM replacement joint for the 1999-2001 Jeep Grand Cherokee - (Front Joint), 2002-2004 Jeep Grand Cherokee - 4.7L & 2002-2005 Jeep Liberty - (Front Joint).*
- The CV Joint Stubs that are made to fit into OEM sized tubing have been made 1/2" longer to allow for the cutting required to remove the damaged stub.*
- For Applications of the New Shafts you would look into our Prop Shaft Catalog or U-joints Catalog... Conversion Shafts end in "C" - OE Style Shafts end in "CV"*
